

## Crown Sydney

|                   |  |
|-------------------|--|
| 📍 Location:       | Sydney, Australia  |
| Shading Solution: | Tensioned Blinds and Roller Blind systems using Vestamatic digital motor drives, BUSbar cabling and controls |
| Delivery:         | CRE  |
| Architect:        | WilkinsonEyre  |
| Builder:          | Lendlease  |

Crown Sydney skyscraper located in the Barangaroo precinct of Sydney stands at a height of 271.3 m with 75 floors, making it the tallest building in Sydney and 4th tallest building in Australia. The building is primarily comprising of a hotel and residential apartments, with restaurants, hospitality venues and casino making up the rest of the building floor space.

Motorised Roller Blinds and Tensioned Blinds were installed using Vestamatic digital motors, programmed and controlled by a centralised building control system operating the blinds up and down to deliver optimal shading.
