

Intelligent Digital Motors for Venetian Blinds with SMI Technology

LL-Centre motor
24VDC w JST
LL-SMI-24C/1,2Nm VB short
Item No.: 01010404

LL-Side Motor
24VDC w Pancon 35 conector
LL-SMI-24-35/1,0Nm VB-B35x40
Item No.: 01092225

LL-Side motor
24VDC w Pancon connector
LL-SMI-24/0,9Nm VB
Item No.: 01010050

Electronic block motor - extra quiet
adaptive speed 230VAC incl. STAS4
VL-SMI-WISO-230-2x3Nm EVB Q
Item No.: 01066446

Electronic block motor
230VAC incl. STAS4
VL-SMI-WISO-230-2x3Nm EVB
Item No.: 01066453

Electronic block motor
230VAC incl. STAS4
VL-SMI-WISO-230-2x5Nm EVB
Item No.: 01066455

Digitale Vestaline 230VAC Venetian Blind Motors with 2x3 and 2x5Nm

- Newest motor generation using SMI 3.0 Standard, older SW-Versions supported as well.
- Electronics from Vestamatic, Mechanics from Dunker.
- Combinable with Vestamatic BUSbar cable solutions.
- Programmable with universal VL-Progset SMI/ME.
- Different Firmware versions available for fabricators on request.
- Magnetic break in Q version for extra quiet positioning with sun tracking systems.
- All motors with molded Hirschmann STAS4 connector.

Digitale Lovoline 24VDC Venetian Blind Motors with 1x0,9, 1x1,1 and 2x0,6Nm

- Newest motor generation using SMI 3.0 Standard, older SW-Versions supported as well.
- Combinable with Vestamatic Lovoline cabling solutions.
- Programmable with universal LL-Progset SMI/ME.
- Different Firmware versions available for fabricators on request.
- Motor speed with slow star/ stop for accurate positioning.
- All motors with plugs and cable assemblies available on demand.
- Extra short side motor with 8,5cm.
- Long lifetime under ambient and high temperature (85°) conditions (IFT approved).

- Extensive knowledge in planning and delivering > 250.000 motors with SMI interface.
- Turnkey solutions from a single source.
- High availability even in times of allocation.
